

Huntsville Housing Authority is going smoke-free on July 1, 2018.

To ensure the quality of air and the safety of residents, while maintaining compliance with federal regulations, all Huntsville Housing Authority public housing and administrative properties will be smoke-free as of July 1, 2018.

As of July 1, 2018, tenants and their guests will no longer be allowed to smoke in public housing apartments.

We are currently preparing a draft policy and will schedule resident meetings in the upcoming months. Our upcoming “Smoke Free Housing” webpage will soon provide more information.
